

DBS Policy

All teachers are to apply for an enhanced DBS check before they start work, or as soon as is practical thereafter. Employing somebody without a completed enhanced DBS check, to work with children or vulnerable adults, is noted as a safeguarding risk. However, we take measures to minimise this risk by not allowing staff unsupervised access until the result of the enhanced DBS check has come through. In the case that we have not received the enhanced DBS disclosure before a candidate begins employment, they are instructed not to be unsupervised with any learner, under the age of 18, at any time.
