

Social Activities Policy

YES wants all learners to enjoy their time here in the UK and to learn about British culture. To facilitate this weekday and weekend excursions/activities are organised. This helps learners to engage with each other, practice the English they have learned, see places of interest and do interesting things. Some activities may be fully/ partly funded by the School, depending on the circumstances and study programme the learner is attending. YES also include trips throughout the year which are free. Places on trips may be limited depending on the destination and the number of staff required.
